Care Pro Spotlight

Tonya Burton

Tonya is truly a Care Pro!
When her client of 3 years
passed away, Tonya shared a
beautiful poem at the
Memorial Service.

We are so proud of you!

In the News

WELCOME
to the Family

**Nadaira
Bouie, PCA**

**Kristina
Zimmerman, LPN**

Poem by Tonya Burton:

Today is the day my friend passed away, he left in quiet not a word to say. But I will remember his laughter and all the stories he told. He lived his life as he wanted, quietly at home. He may not have been famous, no monuments to his name, but I was glad to know him each and every day.

As you my friend, go on to your heavenly rest to be with your family you loved the best, know we are missing you and your time with us was well spent by knowing you each day.

We truly were blessed!

Happy
WORKAVERSARY

Christy Fulcher, RN 2 years!

**THINGS TO
REMEMBER!**

Quarterly Activities:

You are REQUIRED to come into the office and collect the activities each quarter.

In the Know:

Each month you will receive a new **In the Know** quiz. Please ensure all in services are completed by the end of each month. Call the office with any questions or concerns.

Paperless:

You are REQUIRED to document through Clearcare as CENN will be completely paperless July 1.

Beverly Alexander

EKG Award: Client compliment "I want to compliment Beverly on her work ethic, she's a very hard worker and we just adore her! We are very happy with Beverly and I just want to give her some kudos!"

As a reminder

Masks **must** continue to be worn with clients and in the CENN offices. This is company policy. You may wear an N95 mask or a surgical mask.

No fabric masks, gator type masks or bandana type masks are allowed!

JUNE IS

**ALZHEIMER'S & BRAIN
AWARENESS MONTH**

Alzheimer's Disease is a progressive disease that destroys memory and other important mental functions. Brain cell connections and the cells themselves degenerate and die. Memory loss and confusion are the main symptoms. No cure exists, but medications and management strategies may temporarily improve symptoms.
